

Small Cedars

Bonsai Club of Greater Lansing

Where bonsai enthusiasts can converse with others of the same passion, become active growers in there community, and encourage the growing appreciation for this art.

I plan for this site to be a place that light, open, and inviting. Encouraging pleasant growth through simple forms. The site is not only about developing an online community but a physical group that gathers, learns, and grows bonsai together.

Those new and curious to bonsai.

More exerienced gardeners with time.

Teachers and gardens to share time and supplies.
